Choosing **one** of the fourteen short poems listed at the end of the course description for ENG 201 present a response to the poem saying why you have chosen the particular poem and why you find it interesting.

Your response may take any format as long as you present with it **at least one page of writing, approximately 500 words,**

If you wish, your presentation might be in the form of a brief essay, an essay of three to four pages, commenting on the poem. Or you might present your response in another form than an essay. In other words, this assignment does not demand that you present a formal paper. You might look at other poems that the poem reminds you of, or other media which are called to mind by the poem you have selected.
